Digital Fast Charge Cable with LED Power Display

6ft and 12ft | USB-C to USB-C

No more guessing games. With a built-in LED digital wattage meter display, the DigiWATT cable from Naztech lets you clearly monitor exactly how much power your device draws while it charges. For the absolute ultimate universal compatibility, this USB-C cable supports Power Delivery charging up to the maximum 240W level – so you can plug in and visibly fast charge any and all USB-C devices, from low-power headphones to high-power laptops, and everything in-between.

Built with industrial-strength braided cotton and polished zinc alloy connector housings for 20X the durability of standard cables. Includes an integrated silicone strap for easy cable management on the go.
