### 25W USB-C PD & 12W USB DUAL OUTPUT CAR KIT

## 25W

The SpeedBoost Dual Output Car Kit is a complete commuter charging solution that comes with a 25W USB-C & 12W USB dual output car charger and a 4ft USB-C to Lightning cable — the 2 things you need to give your iPhone a super-fast charge on the road. The 25W USB-C port is enhanced with the most cutting-edge Power Delivery fast charging technologies, bringing even the newest and biggest iPhones from 0 to 50% in just 30 minutes — and with PPS support for compatible devices, the charger is able to make micro-adjustments throughout the entire charging cycle that boost its efficiency, charge even faster, and protect your battery from harmful heat buildup. The additional 12W USB port provides more than twice the charging speed of your car's built-in USB, and the two outputs don't split power between each other, so your iPhone gets a guaranteed super-fast charge even while you fast charge another device, accessory, or your passenger's phone. Boost your drive with Power Delivery and PPS efficient fast charge technology, and always arrive fully charged!
