

HYPERGEAR

GRAVITY

Wireless Charging Mount

15W

No more constantly plugging and unplugging cables while on the road! The Gravity wireless charging phone mount makes it easier than ever to power up on your drive without any cables! Simply slide your phone into the cradle: the phone's weight will automatically pull the arms tight for a secure grip and your phone will immediately start charging. The incredible 15W output delivers 3 times the power of a standard charger, saving you two hours of total charging time! Stay hands-free and fully charged on the road.
